

Prudhvish Narayanam

Software Engineer

Bengaluru, India · prudhvish11@gmail.com · [linkedin.com/in/prudhvish11](https://www.linkedin.com/in/prudhvish11) · github.com/prudhvish11

EXPERIENCE

Analyst · Accenture 2025 — Now

- Production Android software deployed across 15,000+ enterprise transit devices.
- Repository-aware RAG workflow for internal code intelligence, built in Python over Azure DevOps.

Associate · Accenture 2024 — 2025

- Cloud-integrated synchronization and distributed-data consistency work for the same Android platform.

Intern · Accenture 2024

- Computer vision work using YOLOv8 and EasyOCR, with edge deployment via TensorFlow Lite on Android.

SKILLS

Languages

Java, Python, SQL

Backend

FastAPI, Flask, REST

AI

RAG, NLP, ML, Computer Vision

Tools

Git, Docker, Azure DevOps, Android Studio

RESEARCH & PUBLICATIONS

DeTox: A WebApp for Toxic Comment Detection and Moderation — College research project, 4-member team 2024

- IEEE Conference (TQCEBT-24), Christ University, Pune.

RECOGNITION & CERTIFICATIONS

ACE Award — Accenture

2026

Microsoft Certified: Azure AI Fundamentals

IBM AI Engineering Professional Certificate

EDUCATION

B.Tech — Computer Science · Kalasalingam Academy of Research and Education 2020 — 2024

- CGPA 9.15 / 10.00
